Subject: Don't delay public hearings on net metering (PSC Docket #2005-385-E)

Sep 25, 2013

Jocelyn Boyd  
101 Executive Center Drive, Suite 100  
Columbia, SC 29210

Dear Boyd,

I respectfully disagree with the decision of the Public Service Commission to indefinitely delay the public hearing on net metering (PSC Docket #2005-385-E) that was supposed to have been held this past September 12th, 2013.

The State of South Carolina is a prime market for solar energy, which provides jobs and promotes a cleaner environment. Net metering is an effective way of promoting solar energy and can be implemented safely and reliably.

The public has a right to be heard on this issue. Adequate notice of a new date for the public hearing should be given as soon as possible.

After all, the PSC exists as a public body to best advance its own motto: "a fair, open, and efficient regulatory process that promotes cost-effective and reliable utility services." I hope that the Commission reconsiders streamlining its hosting of an open public discussion about net metering, in order to so carry-out its own vital role as a public service entity. Thank you for your consideration of this request to re-set a date to have this public discussion in the near future.

Sincerely,

Mr. Fletcher Mann  
49 Richwood Dr  
Greenville, SC 29607-3001
